

ERGOFERT ERGOACTIV

NITROGEN ORGANO-MINERAL FERTILIZER IN SUSPENSION WITH MICRO ELEMENTS

1 L flagon
5 L tank

HOW IT WORKS

- **Nourishes the new buds favoring a vigorous and homogeneous growth;**
- **Provides rapidly assimilable Nitrogen;**
- **Protects the buds by establishing a strong microbiological action of competitive exclusion.**

COMPOSITION

Nitrogen (N) tot. 8%, Organic Nitrogen (N) 0, 5%, Ureic Nitrogen (N) 7.5%, Organic Carbon of biological origin 3%, Rhizosphere bacteria (*Pseudomonas* spp., *Bacillus* spp., *Actinomyces* spp.), Saprophytic fungi (*Trichoderma* spp.).

ORGANIC COMPONENTS

yeast extract and soluble hemoglobin, activated carbon and addition of enzymes extracted from fermentation broths. It also contains: enzymes (cellulase, protease, amylase, lipase), betaine, acid sugars, polycarboxylic acids.

Sourcing mineral Nitrogen fertilizer: urea.

DOSAGES AND DIRECTIONS OF USE

When the buds are open, apply 3 L / ha, spraying the whole plant. To be repeated after 15 days.

Product suitable for all types of crops
